

Le Minh Khoa

AI Engineer

khoa.le.aieng@gmail.com | +84 902 777 321 | Ho Chi Minh City, Vietnam | [linkedin.com/in/khoale-ai](https://www.linkedin.com/in/khoale-ai) | github.com/khoale-ml

SUMMARY

AI Engineer with 8+ years of experience architecting and scaling machine learning systems from research prototype to production, across NLP, recommendation, and computer-vision domains. Experienced in leading small engineering teams, setting technical direction for ML platforms, and partnering with executives on AI strategy. Two patents filed; one paper published at a regional NLP workshop.

SKILLS

Languages	Python, Go (services), SQL
ML / DL	PyTorch, TensorFlow, JAX (experimentation), distributed training (DeepSpeed, Horovod)
LLM / NLP	LLM fine-tuning & evaluation, RAG architecture, prompt/agent orchestration, PhoBERT, BERT, GPT-family APIs
MLOps / Platform	Kubernetes, Airflow, MLflow, Feature Store design, model registries, CI/CD for ML
Cloud	AWS (SageMaker, EKS, Bedrock), GCP (Vertex AI), multi-cloud cost optimization
Leadership	Technical roadmap ownership, hiring & mentoring, cross-functional stakeholder management

EXPERIENCE

Lead AI Engineer — Vantix AI (B2B SaaS, ~150 employees)

Ho Chi Minh City, Vietnam | Jan 2022 – Present (3.5+ years)

- Set technical direction for the company's ML platform, leading a team of 5 engineers building shared training, evaluation, and deployment infrastructure used across 4 product lines.
- Architected a retrieval-augmented LLM assistant now handling over 2 million customer queries per month, cutting average handling cost per query by 45% versus the prior vendor-based solution.
- Drove the migration from single-model batch pipelines to a real-time feature-store-backed serving architecture, reducing model-to-production lead time from 6 weeks to under 1 week.
- Partnered with the CTO and product leadership to define the 12-month AI roadmap and build-vs-buy decisions for foundation-model usage.
- Established an ML evaluation and safety-review process now required before any customer-facing model launch.
- Hired and mentored 6 engineers over 3 years; built the team's onboarding and technical growth framework.

AI Engineer — Zalo (VNG Corporation)

Ho Chi Minh City, Vietnam | Aug 2019 – Dec 2021 (2 yrs 5 months)

- Built and shipped a Vietnamese speech-to-text preprocessing pipeline used in a voice-messaging feature reaching millions of daily active users.
- Led a cross-team initiative to standardize model-serving infrastructure on Kubernetes, cutting average inference latency by 35%.
- Filed 2 internal patents related to on-device model compression techniques for mobile NLP.

Machine Learning Engineer — Tiki Corporation

Ho Chi Minh City, Vietnam | Jun 2017 – Jul 2019 (2 yrs 2 months)

- Built a search-ranking model that improved add-to-cart rate by 9% across the main e-commerce search flow.

- Owned the experimentation platform used by the data science team to run and analyze A/B tests.

PUBLICATIONS & PATENTS

- "Efficient On-Device Compression for Vietnamese NLP Models" — Regional NLP Workshop, 2021 (co-author).
- 2 filed patents on mobile model-compression techniques (VNG Corporation, 2020–2021).

EDUCATION

B.Sc. in Computer Science — Ho Chi Minh City University of Technology (Bach Khoa)

Sep 2013 – Jun 2017

CERTIFICATIONS

- AWS Certified Machine Learning – Specialty (2021)
- AWS Certified Solutions Architect – Professional (2023)
